

Sample PDF Document for Testing

This is a sample PDF document created for testing the PDF editor functionality.

Important Information:

- This document contains sample text that can be highlighted
- It has multiple pages for testing page operations
- Content can be annotated and modified

Testing Scenarios:

1. Text highlighting - highlight 'Important Information'
2. Text annotations - add notes to specific sections
3. Page operations - rotate, reorder, extract pages
4. Image operations - add watermarks and filters

This is normal text that should not be highlighted unless specifically targeted.

The word 'highlight' can be used to test text search functionality.
